VALLEY OF HOPE FOUNDATION

PREAMBLE

The Valley of Hope Foundation as a charity organization complements government efforts in development programmes through empowerment programmes of skills acquisition, aid for widows, teenagers, persons living with disabilities, vulnerable persons, persons living with diverse health conditions such as HIV/AIDS, sickle cell anemia, diabetes, cataract and many others. It fills the vacuum by carrying out sociological, psychological and financial reconstruction through education, health outreaches, poverty reduction, food security and sporting activities,

AREAS OF INTERVENTION

A. SKILLS ACQUISITION

Participants benefit from training programmes in tailoring, bricklaying, catering services, welding, hairdressing, soap and cream production, beads and jewelry making with a startup capital given to participants after a successful completion of any of the training programmes.

B HEALTHCARE OUTREACH

The Foundation organizes seminars, symposia, workshops, talks for creating awareness on all kinds of health conditions which includes but are not limited HIV-AIDS, sickle cell anemia, diabetes and cataract with outreaches to different destinations.

C ENVIRONMENTAL DEVELOPMENT

The Foundation initiates development projects to support the construction and rehabilitation of roads, town centers, educational facilities, providing portable water

Trustees:

Comfort Adesoye, Elizabeth Owuiba, Enonche Ugbabe, Samuel Awasak, Dukdam Gonji, Fati Shettima, Judith Awasak

and harnessing solar energy to light communities, personal and environmental sanitation.

D PROJECT FOOD

Improved seeds, providing seedlings, fertilizers and farm implements for supporting participants to enhance food security during the dry season farming for foods like tomatoes, green peppers, hot bell peppers, chili pepper, carrots, cabbage, ginger, banana, plantain, cocoa, palm products, egusi, sesame seed, groundnut, cow peas and Irish as well as sweet potatoes which are mostly cash crops. The main arable crops are maize, sorghum, millet, cassava, fonio (acha), finger millet (tamba), yam and cocoyam. Other forms of farming like fishery, poultry and animal husbandry are also encouraged and supported.

E FINANCIAL AID AND SPONSORSHIP

Students in primary, secondary and tertiary institutions are granted financial aid and sponsorship with educational resource materials to support their educational pursuit. Books are also collected and taken to schools in the rural areas to help pupils with study materials.

F ACTION FOR THE YOUTH

In a bid to reduce crime, youth restiveness, sport activities are organized for the youth to encourage participation and good sportsmanship for socialization and to overcome emotional stress and substance abuse.

G BASIC AMENITIES

The Foundation supports the communities, (especially the Internally Displaced Persons IDPs) with the distribution of sanitary wares, toiletries, delivery packages, clothing and Project-Food-For-The-Day.

SUMMARY

The foundation identifies areas of needs in communities and rallies for support from persons and groups within and outside the communities. The Foundation garners support to reduce poverty and facilitate a sustainable wealth creation continuum.
